**Intentional
Impact**

With **compassion** and **kindness** we can generate sustained **transformation**. Working together we can bring **healing** and **reduce inequality** across our society. Our partnerships are built on **high-trust** relationships, financial **investment** and leadership **development**.

WHO WE ARE

As the trustees of TTECF, we believe that our Christian faith calls us to demonstrate compassion and kindness to people across society.

Working in partnership with Christian charities we impact individual lives - regardless of background or worldview - and seek to enable every individual to come into the fulness of their potential. Our mission is to build strong, high trust relationships with people across businesses and charities to enable and facilitate sustainable, transformational change in the UK.

Working with business & empowering charities - through investment and leadership development - enables us all to realise our purpose within society and to enhance our reputation.

WHAT WE DO

The Trusted Executive Charitable Foundation works within the UK for the public benefit.

There are three elements to the way we work. We:

- Build trusted relationships;
- Award financial grants;
- Provide leadership development.

Our charitable purpose is:

1. Relief for those in need by reason of youth, age, ill-health, disability, financial hardship, unemployment or other disadvantage.
2. Advancing the education of persons under the age of 25 years in order to develop their ability, and character and so:
 - Enhance their ability to engage in paid employment; or
 - Promote their spiritual, moral, cultural, mental and physical development; or
 - Prepare them for the opportunities, responsibilities and experiences of later life.

HOW WE DO IT

Our approach is different to most grant awarding charities. We focus on building high trust relationships with the Christian charities we support and the leaders of organisations who support our work.

- We provide financial grants, but we also,
- Invest in people and relationships, and
- By working together we maximise potential and create sustainable change;

Our funding comes through our relationships with the business community. We are fortunate to benefit through support from The Trusted Executive Foundation; this is a commercial not for profit organisation providing professional consultancy services. We also receive direct financial donations from businesses and business leaders. This network of relationships enables us to provide leadership development, on a pro bono basis, to our partner charities.

Building a bridge between the worlds of business and charities creates opportunities for people on both sides of that bridge; people working in what appear to be very different environments can bring value to each other and enrich each others life experience.

Working together we can:

- Transform results, relationships and reputation; and
- Heal divisions and inequalities in society through giving, connecting and coaching.

We will measure the impact of our investments in two ways:

There will be a significant increase in the number and depth of trusted relationships between people within the business and charity sectors.

The charities we support will have made a sustainable impact in the lives of the people they are working with, particularly in relation to specific UN Sustainable Development Goals. (cf. UN Resolution 70/1 The 2030 Agenda).
